Extra length valances

Hood fitting service available

FOLDING HOOD MGB 1971-80 (NO ZIP OUT WINDOW)

Double duck hood for the black folding hood frame on 1971-80 MGBs, in plain black or with a choice of five binding colours. True to type for 1971-76 hoods in not including a zip out rear window, it may still be fitted to 1976-80 cars originally fitted with zip out window hoods.

May also be used on pre-1971 MGBs/MGCs originally fitted with with grey packaway or grey Deluxe folding hood frames, so long as the later black folding hood frame is also fitted. Hood and frame types are not interchangeable, so frame identification is vital before placing a order.

Double duck - two layers of automotive grade canvas sandwiching a weatherproof rubberised layer - gives an affordable upmarket natural fabric appearance. Club hoods feature strengthened extra length valances for improved weathersealing and durability. Header rails are not included, but every possible fastener is factory fitted and the hoods are designed to ensure easy DIY fitment to your existing header rail and frame.

Easy to fit. Fitting a new MGB hood is not the difficult task it is often rumoured to be. Using the Club's preferred 'no-glue' method, allowing adjustment of the hood on the header rail, an MGB hood can be beautifully fitted in around 2 1/2 hours.

FITTING INSTRUCTIONS

Basic hand tools required. Craft knife, crosshead screwdrivers, flat bladed screwdrivers, pop rivet gun, electric drill and chalk. Additionally, to fit 'Durable Dot' press-on hood fasteners, you will require a medium weight hammer and a punch and die set (available at a very reasonable price from MGOC Spares).
