

Extra length valances

Hood fitting service available

PACKAWAY HOOD MGB 1962-71 (WITH ZIP OUT WINDOW)

Black mohair hood, fitting the grey painted 'packaway' hood frame used on MGBs built between 1962 and 1971. Includes the very useful option of a zip out rear window from later MGB hoods - this feature was never found on factory packaway hoods.

Mohair is a tightly woven fabric usually found on luxury convertible cars comprising three layers: an external weather-resistant layer, a central rubberised waterproof membrane and an interior lining. Club hoods feature padded and strengthened extra length valances for improved weathersealing and durability. Header rails are not included, but every possible fastener is factory fitted and the hoods are designed to ensure simple DIY fitment to your existing header rail and frame.

Hoods with grey packaway or grey Deluxe folding frames were used on MGBs up to ch. no. 219000 (the latter also fitted MGCs). From then on, hoods on black folding frames were fitted. Hood types and frame types are not interchangeable, so frame identification is vital before placing an order.

Easy to fit. Fitting a new MGB hood is not the difficult task it is often rumoured to be. Using the Club's preferred 'no-glue' method, allowing adjustment of the hood on the header rail, an MGB hood can be beautifully fitted in around 2 1/2 hours.

FITTING INSTRUCTIONS

Basic hand tools required. Craft knife, crosshead screwdrivers, flat bladed screwdrivers, pop rivet gun, electric drill and chalk. Additionally, to fit 'Durable Dot' press-on hood fasteners, you will require a medium weight hammer and a punch and die set (available at a very reasonable price from MGOC Spares)
