

CHROME EXHAUST TRIMS

Top quality, great value bright chrome exhaust tailpipe trim available in a choice of four sizes and styles to fit standard diameter exhausts for Midget/Sprite, MGB (straight), MGB (deflected) or V8 models.

Fitted in moments, the chrome exhaust tailpipe trim simply slips over your existing tailpipe to be held in place with the supplied clamping screw. It provides that finishing touch for a new exhaust system, or will effectively and stylishly cover up the discoloured or surface-rusted tailpipe on an older exhaust.

The perfect accompaniment to other great exterior brightwork accessories from the MGOC Spares range, including boot racks, Rostyle wheel trim rings, badge bars, number plate backings, door handle escutcheons... the choice is endless. Indulge yourself and have a browse through the Brightware section of this website!

Easy to fit. Slip on to tailpipe on the car and secure with clamping screw. That's it.

Basic hand tools required. Just a screwdriver to tighten the clamping screw.
