

## ORIGINAL ALLOY WHEEL CENTRE CAP MGB GT V8

High quality bright finish centre cap for the composite alloy/steel wheel fitted originally to the MGB GT V8. Supplied complete with original 'MG' centre cap badge in satin black and silver finish, the centre cap is supplied individually - order four for a car set.

Note that the wheel centre cap and badge finished in black and gold to match the very similar composite wheel fitted to the 1975 MGB GT Jubilee are also available under the part numbers BHH1810 (centre cap and badge) and BHH1810B (badge only) - please contact MGOC Spares for details.

While tidying up your V8 wheels, don't forget to also order a locking wheel nut set to prevent your lovely wheels and tyres from being liberated by the light fingered brigade - see recommendation below. Also recommended are the stainless steel V8 wheel nuts to complement your rejuvenated wheels, plus a personalised 'MG' anti theft design valve cap set to complete the picture.

*Easy to fit.* Simply push fit into the wheel centre before fitting the wheel.

*No tools required.*
