

## CHROME VALVE CAP SET (SET OF 4)

High quality chrome valve cap set providing that final accent on your MG's gleaming wheels. Fits all MGs - and all other cars - with standard tyre valves. Supplied as a car set of four caps.

Features include knurled finger grips for easy removal and internal rubber seals to effectively seat the caps securely on the tyre valves, preventing ingress of dust or other road dirt. The seals also guard against seizure of the caps on the valves, a well known problem with some older accessory metal valve cap designs.

Club chrome valve caps will of course also fit bicycles with standard Schrader type valves, replacing those horrid cheap looking plastic caps. One set of valve caps equips two bikes!

01954 231318

*Easy to fit.* Simply screw in place on the valves.

*No tools required.*
