

RENOVO HOOD ULTRAPROOF (1 LITRE)

This product will re-establish the original 'as new' waterproof weather barrier of your MG's double duck or mohair soft top!

The recently improved formulation now has the added benefits of ultra-violet factor protection and a mould/mildew growth inhibitor to ensure convertible tops look like new for longer.

Ultra Proofer will help to prevent the harmful penetration of everyday dirt into the fibres of new and old convertible soft top material and help to keep the re-colour provided by Renovo Hood Revivers fresher for even longer.

Owned and managed by a car enthusiast, Renovo has a range of car soft top care products that have proved to be highly effective in their application, so much so that some are used in widely diverse areas - boat and awning restoration to name just two.

Easy to use. Brush soft top to remove loose dirt. Apply with medium (2") paint brush from the centre and quickly work out towards edges, wetting fabric completely. Note: applying in direct sunlight dries product too quickly and unevenly. Wipe excess drips from paint etc. with damp cloth. Allow to dry between coats. A litre is usually sufficient for two coats. Dries in approx. 3 hours, depending on temperature.

Basic hand tools required. New, clean paint brush to apply, damp cloth to remove unwanted drips from paintwork etc.
