

MOHAIR PADDED HALF TONNEAU COVER

Visually superior padded mohair black half tonneau cover, fitting all MGB and MGC roadsters with folding hoods. Mohair is a tightly woven fabric usually found on luxury convertible cars comprising three layers: a weather-resistant layer, a rubberised waterproof membrane and an interior lining.

The upmarket padded half tonneau cover features a full length rear retaining bar for smooth appearance and the main area is upholstered to give sleeker lines. The neatly concealed fixings are all pre-fitted by the manufacturer using precision jigs, ready for you to fit the cover straight onto your car. True to its alternative 'hood cover' name, the half tonneau cover makes a very smart way of finishing the rear of the cockpit when the hood is folded in the down position, rather than going to the bother of fitting a full tonneau cover with tonneau cover sticks.

Some mid-1970s MGBs with 'clip on' seat belts attaching to the rear deck will need two small holes pierced in the half tonneau cover to enable the seat belts to be used with the cover in place.

Easy to fit. All fixings are ready-fitted to the half tonneau cover, so it's just a matter of folding your hood and using the hood's rear fixing points to attach the cover. Absolutely simple.

No tools required.
