## DOUBLE DUCK TONNEAU COVER 1967-79 (HEADRESTS)

Full length tonneau cover with headrest pockets in black double duck fabric, fitting right hand drive 1970s Midgets and Sprites with headrest equipped seats and 1967 onwards cars with Club Sports Recliner seats. Please contact MGOC Spares for ordering details on left hand drive tonneau covers.

Double duck - two layers of automotive grade canvas sandwiching a weatherproof rubberised layer - gives an affordable upmarket natural fabric appearance.

Club tonneau covers for 1967 onwards 1275/1500cc models are supplied complete with most fasteners pre-fitted and all other fastener holes pre-punched by the manufacturer using precision jigs, ready to fit the remaining fasteners and fit the cover straight on the car. 1967-68 models may require an extra pair of Tenax fasteners to be ordered (they had 8, all later cars having 6).

*Easy to fit.* Simply attach the remaining unfitted fasteners and clip the cover to the car. If your car hasn't had a tonneau cover fitted before, you will also require tonneau cover sticks (see recommendation below) plus possibly the brackets on the hood main pivot mountings for the sticks to locate into. The latter are available, each, under part number AHA8082.

*Basic hand tools required.* Small flat blade screwdriver to attach fasteners, Tenax key (optional).
