

STORM COCKPIT COVERS

Designed for fitting to MG models with the hood folded down or packed away, Storm cockpit covers are tailored specifically for MGB and MGC roadsters, Midgets, MGA roadsters or T Types. When not in use, the cover folds up neatly into its own storage bag.

Far more effective than a traditional tonneau cover (though it can of course be used over one, if desired), the Storm cockpit cover fits in seconds if you're caught out by the weather and provides complete waterproofing of the entire cockpit area.

Storm cockpit covers are made from very durable, completely waterproof material with sewn-in rubber bungee cord that simply anchors to the wheel arches or wheels without fear of paintwork damage.

Easy to fit. A Storm cockpit cover simply clips to the wheels or wheel arches of your MG with its soft rubberised straps. Easy for one person to fit, even easier for two.

No tools required.
