

VINYL SPARE WHEEL COVER 13" (SUITS MIDGET)

Heavy duty vinyl spare wheel cover suitable for 13" diameter wheels shod with tyre sizes up to 155 or 165/70 at a squeeze, making it ideal for the vast majority of Midgets and Sprites. It will of course also fit many other classic cars with 13" wheels.

With an elasticated lower seam the vinyl spare wheel cover secures over the wheel easily and remains in place until you want to remove it. A spare wheel cover is the practical and neat way to tidy up the spare wheel in the boot, removing the chance of dirt and muck from the tyre and wheel finding its way onto other more precious items you'd like to stow in the boot.

The perfect complement to one of the range of Club deluxe boot carpet sets, the 13" vinyl spare wheel cover is available in black.

Easy to fit.

No tools required.
