

## CLUB CARPET SET MIDGET & SPRITE 1961-79

Comprehensive seventeen/nineteen piece (depending on model) carpet set, manufactured from original quality carpet material. Extensively developed and precision-cut carpet sections make for trouble-free fitment and professional finish and appearance. Looks and feels even better when combined with a Club undercarpet soundproofing set.

Each Club carpet set includes neatly tailored and bound carpets for front footwells (with stitched-in heel mats), gearbox cover and rear shelf, plus plain carpets for rear footwells, tunnel, heelboard, rear chassis members, rear wheel arches, gearbox crossmember, front chassis members and engine tunnel fillet.

Available in nine colour schemes and a choice of three model fitments: 1961-64 models (948 and 1098cc with quarter elliptic rear suspension), 1964-66 models (1098cc, semi elliptic rear suspension) and 1967 onwards models (1275 and 1500cc).

*Moderate skills required.* The majority of the set is easy and quick to install but the rear chassis members and wheel arches, while well within the capabilities of the average MG owner, demand plenty of time to really get them right.

**FITTING INSTRUCTIONS**

*Basic Hand tools required.* Pliers, tack hammer or similar required to clinch 'Veltex' fasteners into footwell carpets. Upholstery adhesive (aerosol or brush-on) required for all chassis member pieces, rear wheel arch and heelboard pieces, plus possibly a craft knife to carry out any slight adjustment while contouring the rear chassis member and wheel arch pieces that might require it.
