

LEATHER CONSOLE WITH LEATHER PANELS MGB 1968-76

Club design modelled with the centre console features appropriate for MGBs, MGB GTs and V8s built between 1972 and 1976. This one-piece leather trimmed centre console will also make a great addition to the interior for 1968-71 MGBs and MGCs, making a neat installation for a radio in those models plus a handy place to site accessory lamp switches, electric window switches, heated seat switches etc. The console is not suitable for automatic models without modification.

Beautifully crafted in hand-finished leather, the console is supplied with the switch/radio panel also trimmed in leather. Armrest and ashtray are not included, but may be fitted if desired. The leather console is available in eight colours, matching other Club leather trim products.

Most effective as part of a cockpit leather upgrade - other leather-trimmed items that may be purchased include armrest, gear lever gaiter, console extension panels and door cappings. Together with Club leather seats and a Club Classic leather panel set, the result is simply sumptuous.

Easy to fit. Secures to the under-dash reinforcement with four self tapping screws and clips, the centre is held to the tunnel by the gear lever gaiter retaining ring and four screws, while the cubby box is held to the tunnel by a single screw.

FITTING INSTRUCTIONS

Basic hand tools required. A set of crosshead screwdrivers, plus possibly a pad and pencil to note down wiring positions on terminals of electrical equipment being transferred to the new console, if required.
