

VINYL CONSOLE ARMREST MGB

Excellent value padded centre console armrest trimmed in original style vinyl for MGB and MGB GT models, to replace that scuffed and weary item occupying pride of place in the centre of your car.

Sold in assembled condition - no need to struggle to recover your own armrest - but without the associated hinge and catch, which are available as separate items if the originals in your car are similarly tired or broken.

The vinyl console armrest is available in original black, plus a total of ten other colour schemes (six of which feature contrasting piping) - enough choice to ensure a match with any Club interior.

Easy to fit. Three screws secure the rear of the armrest to the centre console hinge, two screws hold the plate retaining the cubby box catch at the front of the armrest.

Basic hand tools required. A set of crosshead screwdrivers.
