

LEATHER FRONT DOOR CAPPINGS MGB GT (PAIR)

Beautifully finished in plush, soft leather, this pair of door cappings are sculpted to fit any MGB GT or MGC GT and make the perfect accompaniment to the Club Classic leather panel kit or a full leather interior upgrade - a very fine alternative to the standard vinyl-covered cappings.

The door cappings are shown to best effect when fitted with new chrome brackets, while also purchasing the Club capping bracket screw set gives an MGB/C GT owner everything they need to fit the cappings to the doors without the hassle of having to work out what's required and order all the parts separately - see the recommendations below.

Available in a choice of six colours to exactly match the base colour options of the Club leather panel kits, seats or seat covers and leather trimmed one-piece centre consoles.

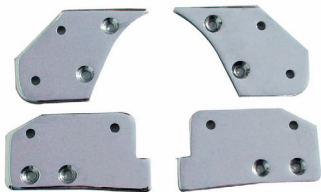

Easy to fit. Even easier if you use nice new screws from the Club capping bracket screw set. Simply screw the brackets to the back of each capping and then screw the cappings to the door shells.

Basic hand tools required. A set of crosshead screwdrivers, plus a drill to make screw holes in new doors (if required).
