

## LEATHER REAR QUARTER CAPPINGS MGB GT (PAIR)

Beautifully finished in plush, soft leather, this pair of rear quarter cappings are sculpted to fit any MGB GT or MGC GT and make the perfect accompaniment to Club leather door cappings, the Classic leather panel kit or a full leather interior upgrade - a very fine alternative to the standard vinyl-covered cappings.

The leather rear quarter cappings are easily fitted with self tapping screws and cup washers. They are available in a choice of six colours to exactly match the base colour options of the leather door cappings, Club leather panel kits, seats or seat covers and leather trimmed one-piece centre consoles.

*Easy to fit.* Simply screw in place with self tapping screws and cup washers.

*Basic hand tools required.* A set of crosshead screwdrivers.
