VINYL DOOR CAPPINGS MGB ROADSTER 1962-64 (PAIR)

Meticulously faithful reproductions of the unique style of vinyl covered door cappings fitted to the earliest MGB Roadsters, from 1962 to late 1964 (i.e. roadsters with pull-out exterior door handles).

Available in pairs, in a choice of six original vinyl and piping colour schemes to match the colour range of Club panel sets for these early cars, the cappings are supplied ready assembled with their trim rolls.

The door cappings are shown to best effect when fitted with new chrome brackets, while also purchasing the Club capping bracket screw set gives an early MGB owner almost everything they need to fit the cappings to the doors without the hassle of having to work out what's required and order all the parts separately - see the recommendations below. The only other parts required will be the two waist rail tab brackets which may be removed from old cappings and reused.

Easy to fit. As supplied, the separately covered trim rolls are already attached to the cappings - the only jobs remaining are to screw the chrome capping brackets to the door cappings, transfer the waist rail tab brackets over from your old cappings to the new ones (more self tapping screws) and then attach the completed cappings to the doors (yet more screws).

Basic hand tools required. Crosshead screwdriver set, plus a drill if the screw holes in the doors need repositioning.
