

EXCHANGE ORIGINAL STYLE VINYL OR CLOTH SEATS

MGOC Spares offer complete exchange vinyl or cloth seat assemblies, in original style for 1970s MGBs, Midgets and Sprites. It's an easy way to get beautifully reupholstered seats, taking away any worries about assembling seats yourself and guaranteeing the top quality professional finish your MG interior deserves.

Exchange vinyl or cloth seat assemblies are supplied in pairs, utilising stock refurbished seat frames. You will receive tautly upholstered seats with new vinyl or cloth covers (depending on model and year), foams and either diaphragms or webbing (as appropriate). Exchange seats are not supplied with runners - please remove runners for reuse before giving us your old seats. Note that exchange seats are also not supplied with headrests, which should be purchased separately.

A wide range of original colour schemes are available as standard; however some non-standard colours may be specified, at additional cost (contact MGOC Spares for special colour requests).

Easy to fit. Simply bolt your upper runners onto the seats, slide on the lower runners and then bolt the lower runners to the floor. Could hardly be easier - perfect seats, totally painlessly. During the process, don't forget to replace any self-locking Nyloc nuts that you undo with new ones.

Basic hand tools required. Just an AF socket set and spanners, plus (depending on model) a crosshead screwdriver.
