

SEAT COVER PROTECTORS (PAIR)

Seat slip covers simply slip over your MG's seats, offering complete protection from scuffs, dirt or even grease or oil when you're nipping in and out of the car during servicing or repair jobs and your mind's not on what you might have picked up on your clothes - they stop those silly accidents you'd regret so much afterwards (if only I'd taken the overalls off...).

Seat slip covers have other uses too: for example they can also be used to protect seats on those occasions when you're carrying something in the car that you'd rather wasn't in there. A wet dog springs to mind.

Manufactured from suitably heavy duty grey fabric and designed to fit all MG front seats (except bench seats of course), seat slip covers are supplied in pairs and now feature the MG octagon logo.

Easy to fit. Simply slip over the seats - no adjustment required.

No tools required.
