

## VINYL REAR SEAT COVERS MGB GT

Excellent value vinyl equivalent of the Club leather rear seat cover sets, with classic pleated feature panels designed to match the Club Classic leather sports front seat assemblies.

The pleated vinyl rear seat covers are also a great complement to the MGB 1970-80 leather front seat covers offered by the Club (which are also the seat covers fitted in the exchange leather front seat service), thus making for an important part of any package to upgrade a 1970s MGB GT with classically styled interior trim.

Available in a choice of twelve standard colour schemes (four with contrasting piping) to help bring to life your dream interior customisation. Other non-standard colours may be specified, at additional cost.

*Easy to fit.* The trickiest parts are making sure the piped corners of the covers exactly coincide with the corners of the foams they are being fitted over, plus aligning the 'Lift the Dot' fastener tabs with the pegs on the car body.

**FITTING INSTRUCTIONS**

*Basic hand tools required.* Upholstery adhesive to fit the boot carpet to the seat back and the seat foams to the backboards. A staple gun secures the edges of the seat covers to the backboards. Screwdrivers fit hinges and seat back catches and a tack hammer does the 'Lift the Dot' fasteners etc. Upholstery pliers are helpful to pull material taut (they also work as a tack hammer - a very useful tool!).
