

COCKPIT RAIL COVERING KIT MGB

Topping out your MGB or MGC roadster's new interior trim should be this cockpit rail covering kit, comprising sufficient piped vinyl to recover the alloy finishing rail that runs around the rear cockpit edge.

Available in a grand total of nineteen colour schemes, nine including contrasting piping, there's sure to be a match with whichever original or bespoke Club trim colours you've chosen for your car.

Best fitted with Club brush-on or aerosol upholstery adhesive.

Easy to fit. Mostly straightforward, but a bit fiddly to get a tidy finish on the corners and at the ends. Take your time to get it right. Also don't forget to scrupulously clean all old adhesive residue from the alloy rail before recovering.

FITTING INSTRUCTIONS

Basic hand tools required. Upholstery adhesive, clean cloth to smooth out air bubbles, craft knife.
