

## CLUB PANEL SET MIDGET & SPRITE 1970 ON

Unique Club design panel set featuring luxury lower carpet sections neatly bound by durable matching vinyl. Most appropriate for the later 1970s models, the panels will also fit 1968-69 models without modification.

The six piece set includes a pair of door panels, a pair of outer footwell panels and a pair of rear quarter panels, permitting a change of trim style without the need to replace the other panels in the car. Alternatively, if a complete retrim is required (for instance for a colour change or restoration), the seven piece supplementary panel set may also be purchased and fitted.

Available in a wide range of eleven colour schemes, some with contrasting piping, the Club panel set is a great way to personalise the cockpit of your favourite sports car.

*Easy to fit.* Hand-fitted metal spring clips used to secure door panels and rear quarter panels, screws and cup washers used on outer footwell panels. Screw holes made with bradawl required as appropriate in outer footwell panels.

**FITTING INSTRUCTIONS**

*Basic hand tools required.* Cross-head screw driver set and bradawl. Small hand drill required if new screw holes are required in body.
