

WALNUT DOOR PULLS MGB 1971-80 (PAIR)

Replace those split and scuffed 1970s vinyl and foam 'phone handles' with this superb pair of burr walnut door pulls, which seamlessly match the other great products in the Club's burr walnut range. Designed to fit 1971-80 MGBs originally fitted with the aforementioned padded handles, the burr walnut door pulls will also fit 1968-71 MGBs and MGCs which have been fitted with later style replacement doors (i.e. doors which accept nylon 'lokut' nuts for the handle screws).

Each pair of burr walnut door pulls is manufactured from hand selected veneer to ensure consistent burr pattern throughout. A deep protective lacquer reflects the beauty of the veneer.

Burr walnut door pulls make the perfect accompaniment to the Club burr walnut dash, console and door cappings - they also look great with a Club Classic leather panel kit or a full leather interior upgrade.

Easy to fit. Two screws hold a door pull to the door shell, screwing into two square nylon 'lokut' nuts clipped into the shell. If you have a 1968-71 car, you may have to fit lokut nuts to be able to attach 1971 onwards type door handles - if the car has had replacement doors fitted at some time, the door shells will feature two small square piercings to accept the nuts.

Basic hand tools required. A crosshead screwdriver.
